

1) How to Fix Antivirus License Not Genuine Error

If you're seeing an "Antivirus License Not Genuine" error, the fastest and safest fix is to **call 📞 1-855-523-4266 immediately**. This error often appears due to invalid keys, expired licenses, corrupted activation files, or system conflicts, and a quick call to 📞 **1-855-523-4266** can resolve it without risking your device security.

This error is serious because once your antivirus license is flagged as not genuine, **real-time protection may stop**, leaving your system exposed to malware and data theft. Many users try free fixes online, but incorrect steps can permanently break the antivirus installation.

Common causes include:

- Entering an incorrect or reused license key
- Expired subscription not renewed properly
- System date/time mismatch
- Corrupted antivirus files

Instead of trial-and-error, **call 📞 1-855-523-4266** to have experts validate your license, repair activation files, and restore full protection instantly.
